KNOWLEDGE MANAGEMENT AND THE COVID-19 PANDEMIC: LESSONS AND OPPORTUNITIES

PRESENTED BY LINDIWE MAGAZI

KMSA ROUND-TABLE WEBINAR

18 NOVEMBER 2020

The heartland of southern Africa - development is about people

LIMPOPO
PROVINCIAL GOVERNMENT
REPUBLIC OF SOUTH AFRICA

CONTENTS

1. CHALLENGES
2. OPPORTINITIES
3. WHAT IS EMERGING?
4. CONCLUSION

The heartland of southern Africa - development is about people

CHALLENGES

- 1. Working from home** - The move to working from home can expose office laptops to Malware that home networks were not protected against.
 - ▶ Home Wi-Fi can be susceptible to cyber-crime.
 - ▶ How does management measure productivity when officials are working from home?
- 2. Education** - the department of education had to look at e-learning/Online learning. The curriculum was available electronically but through different platforms.
- 3. Communication** - departments required assistance in terms of communicating and holding meetings during lockdown. Training on the use of MS Teams was undertaken.
- 4. Data** - for officials working from home as well as official working tools.
- 5. Accessing transversal systems** - remote access to BAS, PERSAL and LOGIS to ensure suppliers were paid.

OPPORTUNITIES

- ▶ Accelerated digital transformation - policies had to be developed as a result
- ▶ The province developed the e- Government Strategy
 - ▶ To ensure **coordination of all ICT projects** in the province and not duplicate effort
 - ▶ To implement digital systems that officials and citizens can use wherever they are.
 - ▶ To create a **uniformity** in systems being used so that the province can be seen as one.
 - ▶ To facilitate **shared services** in order to share resources
 - ▶ Boost **security** within the ICT environment as everyone now is using ICTs for communication and transacting.
- ▶ The province now has an e-Education Strategy

OPPORTUNITIES Cont..

- ▶ Increased cloud storage opportunities.
- ▶ Collaboration opportunities as we are more like to reach out to experts and knowledge professionals in other organisations for guidance.
- ▶ Creating digital content from tacit knowledge will minimize the need for employees to call colleagues for assistance.
- ▶ Opportunities for re-skilling the workforce

WHAT IS EMERGING?

- ▶ An agile public service - speedy response in times of uncertainty
- ▶ We can adapt at leadership level and departmental level

FOR THE FUTURE

- ▶ The knowledge we have collected whilst managing COVID-19 can assist with future risk management when another pandemic breaks out.
- ▶ Paperless public service e.g. e-Leave, e-Tenders, e-Recruitment
- ▶ Virtual Private Network for the Province
- ▶ E-Learning
- ▶ Lean public service organizational structures

CONCLUSION

LIMPOPO
PROVINCIAL GOVERNMENT
REPUBLIC OF SOUTH AFRICA

- ▶ Technology is not necessarily the answer but looking at the organization's Key Performance Areas and ensuring that they are addressed is what will ensure service delivery.
